

AARYA BHATIA

PROFILE

Ambitious engineer with background in Mechanical Engineering and Operations & Supply Chain Management through a dual-degree MBA Tech program, and experience collaborating in multidisciplinary teams on engineering projects from conception to execution. Demonstrates skills in CAD, FEA, CFD, Machine Design, 3D printing, Quality Control and Facility Layout Design. Seeking to pursue a Master's degree in Production/Process Engineering, with a focus on developing efficient, innovative solutions to real-world manufacturing challenges in Industry 5.0 environments.

PERSONAL INFORMATION

Citizenship: Indian
Languages: English, German, Hindi, Sindhi, Marathi

SKILLS

- CAD: SolidWorks, Autodesk Fusion, AutoCAD
- FEA: Ansys Workbench, Ansys Fluent CFD
- Data Analytics: MS Excel, R Studio, IBM SPSS
- Design for manufacturing, Cross disciplinary communication, Systems thinking

EXPERIENCE

PRODUCT RESEARCH INTERN at *Tata AIG General Insurance Company (Mumbai)* **05/2025 - 09/2025**
◇ Conducted primary research with agents and brokers to identify market trends, gaps and challenges
◇ Executed secondary research to analyse event insurance landscape and growth opportunities
◇ Tata AIG's offerings against competitors, assessing coverage and efficiency
◇ Enhanced skills in product research, new product development, and stakeholder collaboration

PROJECT INTERN at *Tata Motors Ltd. (Pune)* **05/2024 - 07/2024**
◇ Performed Monte Carlo based quality analysis to model process variability and support decision-making on manufacturing tolerances
◇ Designed an R134a refrigerant and glycol-water coolant pipeline and performed CFD-based thermo-fluid analysis to recommend optimal insulation via techno-economic material comparison.
◇ Developed RULA ergonomics assessment tool to streamline ergonomic evaluations for line workers and staff.
◇ Gained skills in automotive manufacturing facility operations and in electric vehicle technologies.

EDUCATION

MBA TECH IN MECHANICAL ENGINEERING AND OPERATIONS AND SUPPLY CHAIN MANAGEMENT (CGPA 3.51/4.00). **2021 - 2026**
SVKM's NMIMS Mukesh Patel School of Technology Management and Engineering, Mumbai.
◇ Final Year Project Title: *Design of Manually Operated Solar Panel Cleaner*

HIGHER SECONDARY CERTIFICATE - 12TH (83.83%) **2019 - 2021**
SVKM's Mithibai College, Mumbai

EXTRACURRICULAR ACTIVITIES

HEAD OF DESIGN DEPARTMENT - TEAM KOSMOS **08/2023 - 08/2024**
◇ Led Design and Simulation department of our university's official rover team, achieving 9th place and Emerging Team of the Year in International Rover Challenge 2024; handled project coordination and execution.
◇ Developed a lightweight robotic arm with a 3D-printed ABS end effector and assisted in rocker-bogie chassis prototyping for rough-terrain performance.
◇ Utilized Autodesk Fusion for CAD/prototyping and ANSYS Mechanical for structural testing; strengthened project management, crisis handling, and team leadership skills

FINALISTS - TEAM NOVA **08/2023 - 11/2023**
◇ Showcased a full-scale working prototype of our design innovation at Bharath Cycle Design Challenge 2023, which was selected out of other 800+ teams pan India.

PUBLICATIONS

◇ "ideaForge: Pioneering India's drone revolution - From defence dominance to civilian market opportunities" journal article in SAGE Journal of Information Technology Teaching Cases **2025**
◇ "Empirical Analysis of Impact of Monetary Policy on Business Cycle" chapter in The Paradigm Shift from a Linear Economy to a Smart Circular Economy by Springer **2025**
